EXAMINER'S AMENDMENT

Under 37 CFR 41.39(b), if an examiner's answer contains a rejection designated as a new ground of rejection, appellant must, within two months from the date of the examiner's answer, file either: (1) a request that prosecution be reopened by filing a reply under 37 CFR 1.111; or (2) a request that the appeal be maintained by filing a reply brief under 37 CFR 41.41 addressing each new ground of rejection, to avoid *sua sponte* dismissal of the appeal as to the claims subject to the new ground of rejection. In view of appellant's failure to file a reply under 37 CFR 1.111 or a reply brief within the time period required by 37 CFR 41.39, the appeal as to claims **1-5, 10 and 21** were **dismissed by the Board of Patent Appeals and Interference (see BPAI Decision mailed on 6/02/10), and these claims are CANCELED.**

Claims 7-9 were affirmed by the Board of Patent Appeals and Interferences. Thus, **claims 7-9 have been CANCELED by the examiner.**

Allowable Subject Matter

Claims 11-20 and 22-32 are allowed.

The following is an examiner's statement of reasons for allowance:

Claims 11-20 and 22-32 are allowable for the reasons set forth on pages 5-8 of the decision of the Board of Patent Appeals and Inferences, which is hereby incorporated by reference. As noted therein, the claimed invention requires a kit that includes an intramedullary nail; a first fastener with a shank having a maximum outer diameter less than a distance between first substantially parallel parts of an edge

defining a first portion of an aperture or a distance between two opposing parts of an edge defining a constricted portion of the aperture; a second fastener including a shank having a maximum outer diameter greater than the distance between the first substantially parallel parts of the edge defining the first portion of the aperture or great enough to allow for static fixation when the second fastener is placed in the enlarged portion of the aperture. The closest prior art teaches providing dynamic fixation by forming an insert from resorbable material, not by providing a screw with a relatively small maximum diameter so as to fit into a constricted portion of an aperture. Furthermore, no reasonable combination of references could be found which disclose or suggest the claimed kit.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to JERRY CUMBERLEDGE whose telephone number is (571)272-1346. The examiner can normally be reached on Monday-Friday 9:00-6:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Eduardo Robert can be reached on (571)272-4719. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
